

# Project-44 News

## January 2023

### *A message from the people of Project-44*

Happy New Year! And, while we're at it, Happy Anniversary to us! Project-44 launched as a car ministry 15 years ago this month. Much has happened since our founding. We are proud of how we have served the community and are excited about what is yet to come. In this edition of our newsletter, we recap what we accomplished in 2022 and look at a few things that lie ahead in 2023. As always, we are grateful to everyone who continues to support us with their prayers and financial gifts. Your investment in us, spiritually and materially, has contributed to our success in helping people where they are.

### *2022 in Review*

It was another busy year. Here are a few highlights:

- A mission team traveled to Liberia, where we continued the planning phase for our trade school and assisted at the Healthy Women Healthy Liberia clinic.
- We received a very generous donation from one of our ministry partners earmarked for our efforts in Liberia.
- While donations of vehicles to our car ministry continued to decline, we were able to give vehicles to several individuals and families in need of reliable transportation.
- We continued to engage with several local food pantries in our ongoing effort to address food insecurity.
- Our website received a complete makeover. We've also introduced a more active blog with plans to share our experiences, examine the challenges we see in our community, and provide inspirational content.

### *2023 Mission Trip to Liberia*

We have set the dates for our 2023 trip to Liberia. We will leave on August 22 and return on September 5. More details about the trip and how you can sign-up to join us will be available soon. Check our [website](http://project-44.org) for more information.

### *Donate*

Financial gifts to Project-44 can be made by visiting the [Donate page](http://project-44.org) on our website, mailing a check to the address above, or online through PayPal using [@Project44](https://www.paypal.com/paytoemail?email=project44org).

## Car Ministry

One of the disappointments of 2022 was having to make the difficult decision to suspend accepting new applications for vehicles. Car donations have dropped so significantly that it is impractical to continue adding requests to our long list of eligible applicants. It is particularly disappointing as we celebrate 15 years of service and reflect on the ministry that started it all.

Nevertheless, we won't give up! We will keep existing applications on file in hopes that donations pick up. We will also continue to work with our partners to identify potential car donations. We encourage anyone who has a vehicle they no longer need to consider donating it. Visit the [Contact page](#) on our website to let us know if you have a car to donate.

## Give Us A Follow

Look for us on Facebook, Instagram, YouTube, and our recently updated website [Project-44.org](http://Project-44.org). Subscribe to our blog to receive alerts to new posts.

## Mental Health

Counseling services continue to be a vital offering we provide the community. Our world is becoming increasingly complicated. Stress and anxiety abound. Project-44 serves the community with professional counseling services for those who might not be able to afford them. If you or someone you know is struggling with mental health issues, please reach out to us.

## Food Insecurity

The food pantries we support are continuing to experience heavy demand from families looking for assistance. Organizations such as the Tarrant County Area Food Bank continue to find ways to help meet the demand, but they can use your support. Project-44 remains committed to serving those in our community living with short-term and chronic food insecurity. We continue to seek out ways to meet the ever-increasing demand.
